I wish to apply for a supply of electricity in accordance with the company's Standard Terms and Conditions for Electricity Supply and I accept these Conditions as specified.

.....

**Applicant's Signature**

.....

**Date Of Application**

This application does not in the case of a capital contribution being requested to be paid by GPL, oblige the customer to make payment or to take electricity supply

**Comments:**

An application is deemed to have satisfied the company's Standard Terms and Conditions for a connection if:

1. Proof of legal occupancy has been established via presentation of a certified copy of transport, certificate of title, lease and or tenancy agreement
2. Proof of identification (Valid Passport , National Identification Card )
3. A maximum of 60 feet of secondary cable is required from the customer's point of entry to the nearest secondary pole / connection point.
4. The installed capacity does not exceed 60amps (as noted on Certificate of Inspection provided by the applicant); otherwise an investigation will be conducted to determine the network capacity.

**Note:** Should subsequent investigations conducted by the company reveal any amounts owing from previous or existing electricity accounts, the company reserves the right to transfer these amounts to the prepaid account.
